THE CMM AS A TOOL FOR REGIONAL DEVELOPMENT

Throughout history, the Mogiana region has been part of Brazil that reinvents itself and moves forward. As the diversification of services and other economic activities intensified the growth of cities, the challenges of managers also increased. in the areas of health, education, infrastructure and social assistance. Legitimate demands that can be met through dialogue between the entities of the powers, this is the mission of the Consortium of Municipalities of Mogiana, to be a collective that expands the representation of municipalities, supported by cooperation between entities and the commitment to inspection and encouragement of projects that benefit the region at the state and federal levels.

Created in 2017, the CMM - Consortium of Municipalities of Mogiana is a seed which was not slow to bear fruit, several cities have already been awarded resources and equipment that met their needs. Advances and achievements that they are the result of participatory management and focused on the development agenda of social indicators in the Mogiana region. In addition to acting in political articulation, following actions, projects and agreements of municipalities at the state and federal levels, the CMM works strongly in the training and qualification of municipal public managers. Another big plus for the municipalities consortium with the CMM are the Price Registration Minutes for purchase joint implanted by the same, as asphalt mass, asphalt emulsion, rental of machinery, medicines, hospital supplies, school supplies, among others, which enabled more than R\$ 40 million in savings for the municipalities of Mogiana.

TOURISM

Technical Chamber

The CMM Technical Chamber of Tourism acted in a fundamental way in guiding the construction of Municipal Plans and also in coordinating projects so that our municipalities could become MITS - Municipalities of tourist interest.

Diversity is one of the main characteristics of the tourist offer in the state of São Paulo.

Paulo, are rivers, lakes, natural beauties, extreme sports, beaches, museums, churches, rural farms, business and corporate events, international shows, traditional festivals and typical cuisine, some of the potential of this state, which combine with ease of access most municipalities through the roads and highways that connect them internally and easily with neighboring states.

TECHNICAL CHAMBERS: They had important work in exchanging experiences and developing joint actions.

37 MUNICIPALITIES PARTICIPATED IN THE MEETING OF MAYORS IN RIBEIRÃO PRETO HELD BY THE CONSORTIUM OF MUNICIPALITIES CMM AND APRESP

The Superintendent of FUNASA of the State of São Paulo participated in the Regional Meeting of Municipalities with mayors and municipal technicians in the city of Ribeirão Preto. On the occasion, Anastasi individually assisted 37 municipalities, of which 22 mayors were present, presented their claims and received guidance from FUNASA. Among the main demands of the mayors was the issue of prohibiting municipalities that are part of the Metropolitan Region from signing agreements with FUNASA. On this topic, the Superintendent pointed out that the president of FUNASA at the time, Ronaldo Nogueira, worked personally so that in the voting of the next LOA, this impediment is removed and from 2020 onwards, municipalities are released to enter into their agreements with the entity.

RECOVERING PROGRAM

The CMM held a meeting with all the mayors of the region at Palácio dos Bandeirantes with the then incoming Governor Márcio França to align the proposal for the Resurfacing Program aimed at municipalities.

TRAINING

TECHNICAL CHAMBER OF AGREEMENTS

CONSTANT TRAINING OF MUNICIPALITIES IS THE FOCUS OF THE CMM

The CMM - Consortium of Municipalities of Mogiana has constantly promoted the training of municipal employees to better use the Platform of Agreements of the Federal Government. The Technical Chamber of Agreements has held meetings with the municipalities to provide guidance on fundraising, preparation of proposals, monitoring and accountability of agreements at the state and federal levels.

City halls can forward as many servers as they wish to be trained by the Consortium and later these become multipliers of the tool.

CMM Technical Chamber of Tourism discusses Municipalities of Tourist Interest

TOURISM

CHAMBER TECHNIQUE TOURISM

The meeting took place in the auditorium of the CMM headquarters, in the city of Ribeirão Preto and was attended by the Mayor of Monteiro Lobato and President of AMITESP - Association of Municipalities of Tourist Interest in the State of São Paulo, Daniela de Cássia and Alfredo Gimenes who is Executive Director of CNTUR/SP. The president of AMITESP discussed with the members of the Technical Chamber of Tourism of the CMM the topic of Municipality of Tourist Interest and the current situation of Tourism in the State of São Paulo, while Alfredo Gimenes addressed the Culture of Tourism and its importance for the development of tourism in our cities.

The meeting was organized and chaired by Edenir Luís Bellic, who is the president of the Technical Chamber of Tourism of the CMM - Consortium of Municipalities of Mogiana, which reflected the importance for municipalities of the issues discussed for the benefit of municipalities, as they are more organized, both by CMM and by AMITESP to defend the tourism agenda in the State of São Paulo, especially those who have already conquered and those who are still applying to become MIT – Municipality of Tourist Interest.

CMM Executive Secretary Edson Ávallos also attended the meeting and highlighted the importance of the mayor of Monteiro Lobato Daniela de Cássia, emphasizing the great transformation that the mayor made in Monteiro Lobato, taking care of the city as a whole, rescuing the quality of life and taking care of people and that as president of AMITESP is already doing unique work throughout the state of São Paulo.

CMM Board with President of Brazil Jair Bolsonaro

CMM Board with the President of Brazil Michel Temer

CMM IS RECEIVED BY TWO PRESIDENTS OF THE REPUBLIC

The mayors of the CMM - Consortium of Municipalities of Mogiana were received at the Palácio do Planalto four times in audiences.

Former President Michel Temer twice received the CMM and its mayors and President Jair Bolsonaro also twice received the Mogiana delegation.

During these visits, the mayors and the administrative team of the Consortium presented the integrated actions and presented the great needs of the municipalities and the region. These were productive meetings, which resulted in the opening of many doors in the Ministries for the solution of municipal problems.

Through these visits, the Consortium also received the participation of several technicians from the Federal Government in its Seminars and Congresses that it has held over its three years of existence.

The mayors of the CMM Consortium were able to each put their position and expose the difficulties faced by their municipalities and discuss possible alternatives related to the payment of Precatório with the Court of Justice of the State of São Paulo. The mayors evaluated this approach and the creation of a dialogue channel with DEPRE as very positive.

PRECA TORY

CMM TAKES MAYORS TO DISCUSS COURT-ORDERED PAYMENTS WITH THE COURT OF LAW

The CMM - Consortium of Municipalities of Mogiana organized a hearing at the Court of Justice, with the team from DEPRE - Department of Precatório, to address one of the biggest problems faced by the municipalities.

The payments of high amounts in court orders is a topic that has been of great concern to the entity's mayors and has caused a lot of financial difficulty for the municipalities and that is why it was important to create this channel of dialogue between the entities.

Mayors of the Consortium of Municipalities of Mogiana debate regional strategy

The mayors of the Mogiana Consortium of Municipalities (CMM), an entity that brings together 42 cities in the regions of Ribeirão Preto, Franca and Mococa, met at the entity's headquarters to discuss important regional actions for the benefit of the consortium municipalities. creation of price registration minutes for the joint purchase of asphalt and medicines, regional claims to be forwarded to the State Government, in the virtual "Meeting of Mayors of São Paulo", which will take place on November 27th and 28th at the FAAP auditorium , in Ribeirão Preto, and also the approval of the official program of the referred event.

The president of the CMM, at the time, Dimar de Brito, presented the preliminary program of the Meeting of Mayors, and later the mayors who were present presented their suggestions for regional elections. The Mayor of Cravinhos, José Carlos Carrascosa dos Santos, did so. present and highlighted that this meeting of mayors will be very important, since there will be face-to-face service "by Federal and State Government technicians, as well as the participation of secretaries and ministers, who will be able to solve various problems in the municipalities right there," he adds. The event promises to be a milestone and, mainly, for the Consortium of Municipalities of Mogiana.

CONJUNCT ACTION

CONSORTIUM DEBATING FINANCES

Mayors and representatives of municipalities discussed the current financial situation of the Consortium after three years of work

Mayors and representatives of the cities that make up the Consortium of Municipalities of Mogiana (CMM) participated in a meeting that debated, mainly, the notes of the Court of Auditors and the next actions.

There were several minutes for joint purchase between the consortium municipalities, which allowed the entities to save on the order of R\$ 250 million between the years 2018 and 2019. , for the rental of equipment and machines, were R\$ 3 million and in health, a Minutes were carried out for the purchase of medicines in the amount of R\$ 220 million.

Created on March 6, 2017, during the Congress of Municipalities of Mogiana held in Ribeirão Preto, the CMM covers 36 municipalities and is enabling significant savings to its members through the implementation of Price Registration Minutes for various products and services.

CMM IS 1ST IN NOTICE NATIONAL GOVERNMENT OF THE FEDERAL GOVERNMENT (CAIXA), WINNING 40 PUBLIC CONSORTIA IN BRAZIL

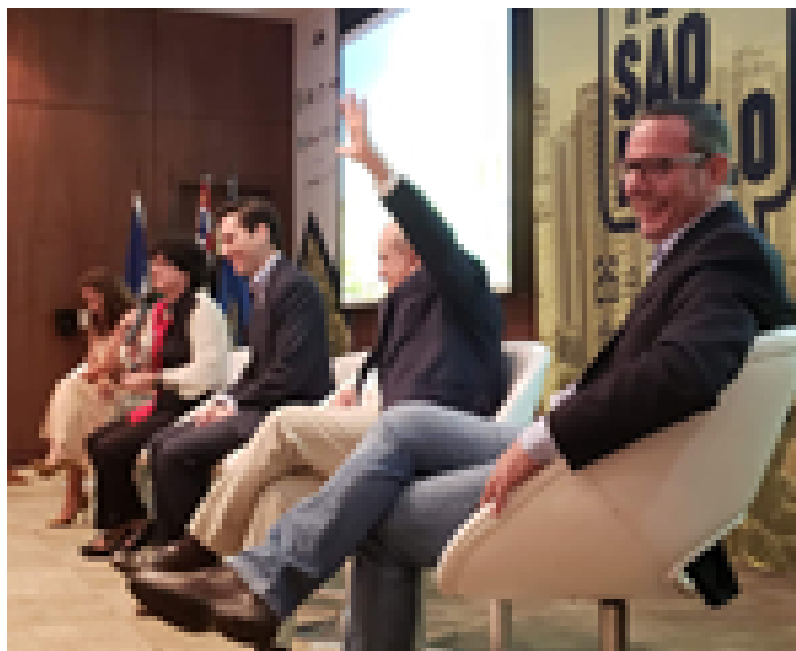

More than BRL 7 million will be allocated to the project to implement a Solid Waste Treatment Unit

CMM is ranked 1st in Caixa's Public Landfill Notice in a competition with 41 consortia from eight Brazilian states. 41 public consortia were registered, 23 were enabled, covering 304 municipalities in eight states – Bahia, Espírito Santo, Minas Gerais, Mato Grosso, Pernambuco, Rio Grande do Sul, Santa Catarina and São Paulo, totaling 9.9 million people benefited.

The CMM – Consortium of Municipalities of Mogiana, composed of 36 municipalities from the regions of Ribeirão Preto and Franca, was at the top of the list, placed first in the ranking and this means that it was the first to be called to sign the contract to implement the partnership .

MAYORS MEETING

CMM Consortium promotes debates on topics relevant to municipalities

Through its various meetings and seminars aimed at mayors and municipal employees, the Consortium of Municipalities of Mogiana has enabled not only the exchange of experiences between entities, but also the promotion of training for managers and their teams in different areas. During the events, debates took place through thematic panels on various topics of interest to the municipalities and also in service booths set up at the event. Mayors can file their demands and follow up on their agreements in progress with the state and federal governments, on the spot, generating savings in traveling to Brasília.

CONSORTIUM OF MUNICIPALITIES CMM DEFENDS OF THE MUNICIPALITIES IN THE REGION OF FRANCA AND GUARANTEED INCREASE IN COVID BEDS

The CMM - Mogiana Municipalities Consortium defended the municipalities in the Franca region, which are also part of the consortium, and guaranteed an increase in the number of beds in the ICU COVID.

The meeting requested by the interim president of the CMM, Edson Ávallos, was held in partnership with DRS VIII in the city of Franca on December 30, 2020 at 10 am and was attended by the elected mayors and secretaries of the municipalities of Itirapuã, Jeriquara,

Paulista Sponsorship, São José da Bela Vista, Morro Agudo, São Joaquim da Barra, Ipuã, Miguelópolis, Buritizal, Igarapava, Sales Oliveira and Orlandia.

The interim president of the CMM opened the work highlighting that the concern, in addition to ensuring care for people in need of beds, ICUs was concomitant with the concern and action for that the region of Franca does not step back from the phase in the next evaluation of the São Paulo Plan that took place on January 7, 2021.

“The preservation of people's lives must always be as a priority, but we can't stay put crossed waiting and running the risk that the region of Franca could return to the orange phase or red as it happened before for being below average, mainly due to the lack of beds, for example, and this requires immediate action”, highlighted the president.

The CMM with a group of mayors was already along the week dealing with DRS VIII a way out of the issue such as, for example, the renewal of the agreement with the state of the 10 ITIS beds in the city of Igarapava, an announcement that was confirmed during the meeting, the state renewed the agreement on the day of the meeting orchestrated by the consortium.

Another point dealt with to ensure the increase in the number of beds in the region was to supply the 3 respirators that were defective and unusable in the municipalities of Ipuã. The city has 10 COVID beds, but only 7 were suitable for use. The solution occurred during the meeting, the municipality of Morro Agudo, through Mayor Vinicius Cruz Castro, temporarily lent the 3 respirators to Ipuã and with that the region now has 70 ITIS beds. To address health issues in the Franca region, the CMM - Consortium of Municipalities of Mogiana created the Regional Health Committee and the ordinance officializing the act was signed during the meeting by the interim president of the CMM, Edson Ávalos, and following the signature the board of the aforementioned Committee was sworn in, where the mayor of Morro Agudo Vinicius Cruz de Castro remained as president, the mayor of Miguelópolis, Naim Miguel Neto, as vice president, and the mayor of Patrocínio Paulista José Mauro Barcellos as General Coordinator, so the three medical mayors of the region will be in charge of the Committee.
